

Hello,

I am an AI-Driven Product Designer

AI-Driven Product Designer with 10+ years of experience architecting enterprise, data-intensive, and AI-native products across energy, fintech, and climate tech.

Selected Impact

- _Architected enterprise energy platforms making grid behavior and emissions systems legible for operators and executives.
- _Led AI-powered analytics and scalable interaction systems for complex energy and financial platforms.

Principal UX Consultant

KMXD Design (Dec 2025 to Present)

- _Founded consultancy helping Product and Engineering leaders turn complex data problems into scalable product systems.
- _Drive interaction architecture and AI-assisted prototyping from ambiguity to production-ready frameworks.

UX Consultant

ChatFin (Apr 2024 to Present)

- _Design AI-driven financial interfaces and agentic workflows with data scientists and engineers.
- _Advise on UX strategy and interaction architecture to keep AI systems scalable and interpretable.

Staff Product Designer

Cleartrace (Mar 2024 to Nov 2025)

- _Led AI-informed research and cross-functional experimentation to refine features and improve adoption.
- _Owned MVP architecture and prototyped extensible interaction patterns for long-term platform evolution.

Sr Product Designer

Voltus Inc (Jun 2021 to Mar 2024)

- _Led end-to-end architecture of a Carbon Reporting system translating grid events into actionable CO₂ impact insights.
- _Partnered with Engineering and Product to realign Account Management with evolving technical workflows.

Skills & Tools

Design & Prototyping: Figma, Figma Make, Google Stitch, Sketch, Adobe XD, Webflow | AI Research & Workflow: Claude, ChatGPT, Gemini, Cursor, Miro & Miro AI | FE & Data: HTML/CSS/JS, jQuery, Tableau, GSuite

Education

Lindsey Wilson College - Master of Science - MS, Technology Management (2020 - 2022)

Academy of Art University - MA, Web, Digital/Multimedia & Information Resources Design (2014 - 2016)

References on request

Product Designer & Manager

Climate Cabinet (Jan 21 to Jun 2021)

- _Designed and launched a policy scoring system improving transparency and comparability.
- _Integrated Webflow CMS with Engineering for production-ready delivery.

UX Designer & Data Visualization

Tadaa.ai (Jan 2020 to Jun 2021)

- _Designed and shipped core UX for an AI-powered product, translating ambiguity into scalable workflows.

Product UI/UX Designer

Sunrun Inc. (Oct 18 to Dec 19)

- _Led research and validation to improve clarity across internal energy tools.
- _Delivered solar and battery monitoring dashboards with Engineering, iterating post-launch.

UI/UX & Front End Developer

Charlie's Acres (Dec 17 to Sept 18)

- _Built and shipped a custom responsive web experience end-to-end.
- _Collaborated directly with stakeholders from concept to production.

Web & Front End Designer

NY Design SF (Aug 16 to Jun 17)

- _Delivered responsive design systems for client engagements.
